Sliding Scale (Discounted) Fee Policy

The Sliding Scale (Discounted Fee) policy is to provide essential behavioral health services regardless of the client's ability to pay. A sliding fee scale is offered based upon family/household size and annual income. IP's sliding fee schedule is used to calculate the basic discount and is updated each year using the Federal Poverty Guidelines. Upon approval, the discount will be honored for 12 months, after which the client must reapply.

Sliding Scale (Discounted) Fee Process

The client must complete an application and include required documentation to be kept on file, which includes proof of address, all household income, and/or insurance information. This information must be received before a discount will be determined. If the applicant appears to be eligible for Medicaid, a written denial of coverage from Medicaid will be required. If the amount determined per the discount fee is not affordable a letter may be submitted for review to further reduce the payment amount. A further reduction will be made on a case by case basis.
